SEO / GEO / AEO Audit Report

FULL AUDIT · 2026-07-19

Executive Summary

Celebration has the portfolio's largest programmatic footprint, but also its highest SEO risk. Live traffic redirects www to the apex host while every canonical and sitemap URL declares www, sending contradictory indexing signals. All 126 city×service pages are thin near-duplicates of roughly 267 words, share only nine body templates, and visibly state that the lead form is a demonstration. The Florida Airbnb turnover guide is the standout asset and should become the model for rebuilding local pages.

Dimension	Score	Status
SEO	5/10	Needs Work
GEO	6/10	On Track
AEO	5/10	Needs Work

Crawl Scope

145 sitemap URLs: 5 core/content pages, 14 city hubs and 126 city×service pages (14 cities × 9 services); both apex/www robots and sitemap variants were inspected.
