SEO / GEO / AEO Audit Report

FULL AUDIT · 2026-07-19

Executive Summary

Cleaning Weekly has a valuable local matrix and the portfolio's strongest single pricing guide, with TechArticle, FAQPage, Speakable and a comparison table. Critical launch blockers outweigh that foundation: every canonical and sitemap URL uses a www host that did not resolve during the audit; phone values are blank or fictional 555 numbers; sameAs contains REPLACE_PROFILE placeholders; and major AI crawlers are blocked. No About, Team or Contact page exists.

Dimension	Score	Status
SEO	5/10	Needs Work
GEO	4/10	Needs Work
AEO	7/10	On Track

Crawl Scope

All 52 sitemap URLs: homepage, booking, one pillar guide, Locations hub, 6 city pages, 36 city×service pages and 6 core service pages; robots.txt and both sitemap files inspected.

Signal-by-Signal Findings

Dimension	Signal	Evidence	Status
SEO	Canonical host	All canonicals and sitemap URLs declare www, but the www host did not resolve while apex served content.	Critical
SEO	NAP integrity	Homepage phone is blank/'coming soon'; other pages and schema use (407) 555-0148.	Critical
SEO	Architecture	Six cities × six services have clean paths, unique titles and broad internal links.	Good
SEO	Content depth	Core service pages are about 260–275 words; Locations hub 185; Book page about 104.	Needs Attention
SEO	Social metadata	OG image is SVG, which is unreliable on major social platforms.	Needs Attention
GEO	AI crawler access	robots.txt blocks GPTBot, Google-Extended, ClaudeBot and related fetchers.	Critical
GEO	Entity integrity	sameAs contains REPLACE_PROFILE stubs and the entity has no real phone or street address.	Critical
GEO	E-E-A-T	About, Team and Contact routes are missing; most imagery is stock Unsplash.	Missing
AEO	Pillar guide	Orlando weekly pricing guide includes a direct answer, table, FAQPage, TechArticle and Speakable.	Good
AEO	Coverage gaps	Homepage and core-service FAQs lack FAQPage; no HowTo exists.	Needs Attention
