SEO / GEO / AEO Audit Report

FULL AUDIT · 2026-07-19

Executive Summary

Cleaning Winter Haven has good service-page SEO, transparent pricing, FAQ schema, and strong neighborhood coverage. GEO is the weak point because robots.txt blocks GPTBot, Google-Extended, ClaudeBot and other major AI crawlers. There is no About/Team page, streetAddress is empty, and no sameAs graph exists. A separate technical issue is that HTTP serves content with status 200 instead of redirecting to HTTPS, creating duplicate-protocol risk.

Dimension	Score	Status
SEO	7/10	On Track
GEO	4/10	Needs Work
AEO	7/10	On Track

Crawl Scope

9 sitemap URLs: homepage, 6 service pages, Pricing and Service Areas; robots.txt and sitemap.xml inspected. About, Team, Contact, FAQ and Blog routes were probed and returned 404.

Signal-by-Signal Findings

Dimension	Signal	Evidence	Status
SEO	Protocol canonicalization	HTTP serves a 200 response instead of a permanent redirect to HTTPS; HSTS was not observed.	Critical
SEO	Metadata	Service titles/metatags are mostly strong; homepage title is 70 characters and description is about 202.	Needs Attention
SEO	OG sharing	Every page reuses generic OG text and a 512px app icon rather than a 1200x630 page visual.	Needs Attention
SEO	Content	Service pages are useful; Pricing and Service Areas are thin at roughly 309 and 301 words.	Needs Attention
SEO	Schema	LocalBusiness, WebSite, Service, FAQPage and BreadcrumbList are implemented.	Good
GEO	AI crawler access	robots.txt disallows GPTBot, Google-Extended, ClaudeBot, Applebot-Extended and others.	Critical
GEO	E-E-A-T	No About/Team/people, credentials, sameAs links or street address were found.	Missing
GEO	Citable facts	Pricing bands, add-on percentages and neighborhood coverage are machine-summarizable.	Good
AEO	FAQ coverage	Homepage and all six service pages provide unique, concise FAQPage answers.	Good
AEO	Advanced formats	The three-phase construction workflow has no HowTo; Speakable is absent.	Missing

Priority Recommendations

Priority	Action	Dimension	Effort	Impact
Critical	Decide AI-crawler policy; allow answer-engine fetchers if GEO visibility is desired.	GEO	Low	Very high
Critical	Force HTTP→HTTPS with 301/308 and add HSTS after verification.	SEO	Low	High
High	Publish complete NAP and remove the empty streetAddress value.	Local/AEO	Low	High
High	Create About/Team content with real people, credentials and sameAs profiles.	GEO	Medium	High

Priority	Action	Dimension	Effort	Impact
High	Use unique OG metadata and a 1200×630 image per key template.	SEO	Low	Medium
Medium	Expand Pricing/Areas and mark the construction process as HowTo.	SEO/AEO	Medium	Medium

What's Working Well

Verified strength
Unique FAQPage answers on every service
Transparent price ranges
Winter Haven neighborhood specificity
Clean service URL and breadcrumb architecture

Measurement Limitations

This crawl evaluates delivered HTML, crawl directives, metadata, content and structured data. It does not measure backlinks, Search Console indexation, rankings, Google Business Profile performance, conversion analytics, or field Core Web Vitals.
