SEO / GEO / AEO Audit Report

FULL AUDIT · 2026-07-19

Executive Summary

Deltona has a clean local service architecture, consistent geo targeting, Service and FAQ schema, and one genuinely citable move-out inspection guide. AEO is the strongest dimension. GEO is held back by a thin About page, no named people or credentials, no street address, no sameAs entity links, and no external citations. The homepage and Services hub also share a title, and the content program currently consists of a single article.
