SEO / GEO / AEO Audit Report

FULL AUDIT · 2026-07-19

Executive Summary

Haines City has solid traditional SEO, transparent prices, useful local service pages, FAQPage markup, and fact-dense Airbnb and move-out articles. The largest risk is invalid sitewide entity data: LocalBusiness sameAs values still contain literal PLACEHOLDER URLs. No About or Team page exists, no street address is published, and the three area pages contain only about 200 words each. These weaknesses explain the lower GEO score despite a strong answer-ready content foundation.

Dimension	Score	Status
SEO	7/10	On Track
GEO	5/10	Needs Work
AEO	7/10	On Track

Crawl Scope

All 16 sitemap URLs: homepage, Pricing, Blog index, 7 service pages, 3 area pages and 3 blog posts; robots.txt and sitemap.xml also inspected.
